HD SERIES DRAWWORKS

The Warrior HD Series Drawworks is a 2-speed hydraulic-drive single-drum Drawworks. Current models range from 18,000 to 35,000-lbs of single-line pull. The Drawworks **drives up and down** and normal braking is provided dynamically through the hydraulic system. Braking energy is absorbed by the drive system. A fail safe, spring applied, hydraulic released brake is included for parking and emergency stopping.

Sample Specifications of the Warrior Model HD30-2S drawworks with 30,000-lbs of single-line pull.

1.1 Overall Dimensions:

- Length: 49"
- Width: 35"
- Height: 40"
- Weight: 3,800-lbs (bare drum)

1.2 Drum:

- Diameter: 24"
- Width: 26-13/16"
- Capacity: On 1 Layer: 158 feet
On 2 layers: 329 feet
On 3 layers: 512 feet

Lebus grooving for 7/8" drill line.

1.3 Power and Braking:

- Haggglunds CA140 dual-displacement hydraulic motor.
- Haggglunds MDA21 spring-applied (fail safe) brake for parking and emergency stop.
- Haggglunds 2-speed valve for displacement shifting.
